MaineHousing Mission Statement

The mission of MaineHousing is to assist Maine people in obtaining and maintaining quality affordable housing and services suitable to their housing needs.

HOME American Rescue Plan (“HOME-ARP”) Program 2022 Request for Proposals (RFP)

A. Overview

Section 3205 of the American Rescue Plan Act of 2021 (P.L. 117-2) established HOME-ARP to provide funding for assisting people experiencing, or at risk of experiencing, homelessness. MaineHousing is making up to \$13.3 million of HOME-ARP funds available under this RFP for qualified developers. Awards under this RFP, or any subsequent RFP, are contingent upon the Department of Housing and Urban Development (HUD) approving MaineHousing’s HOME-ARP Allocation Plan.

MaineHousing may amend, suspend or terminate this RFP at any time, and may award all, a portion of, or none of the HOME-ARP funds. Any amendments will be listed on MaineHousing’s website and sent to interested parties. MaineHousing may make additional funding sources available for this program if available and appropriate. The proportion of HOME-ARP and/or any other funding resources awarded to an individual project will be determined by MaineHousing to ensure efficient, allowable, and appropriate use of all resources. MaineHousing will make awards using the Scoring Criteria outlined below. Funds will be allocated according to scores, with the highest scoring project receiving the first allocation. MaineHousing may award additional funds from another MaineHousing source, or award remaining funds in the next funding round.

B. Eligible Applicants

Eligible applicants are:

- Not-for-profit organizations;
- For-profit housing developers;
- Public Housing Authorities; and
- Community Action Agencies

C. Eligible Uses

HOME-ARP eligible activities are:

1. **Produce affordable rental housing** for people experiencing, or at risk of experiencing, homelessness (up to 20% of a project may be used for non-congregate shelter);
 - a. New Construction
 - b. Adaptive Reuse
 - c. Acquisition and Rehabilitation of existing, non-rent restricted units

And, if required to serve the qualifying population of the affordable rental housing:

2. **Fund a supportive services reserve** (up to 5% of a project’s total development cost can be set aside to initially fund services prior to permanent service funding availability);
3. **Fund non-profit capacity building** up to \$50,000 per non-profit organization that will carry out HOME-ARP eligible activities. MaineHousing will award non-profit capacity building

grants based on the need as demonstrated in the application. Consideration will be given to non-profits that need to hire additional consultants for the development of the HOME-ARP-funded project and non-profits that need to expand their expertise to better serve the eligible populations to be housed in the HOME-ARP-funded project.

Eligible **affordable rental housing** includes “housing” as defined in 24 CFR 92.2, and further outlined in HUD Notice CPD-21-10, as including but not limited to “manufactured housing, single room occupancy (SRO) units, and permanent supportive housing. Emergency shelters, hotels, and motels (including those currently operating as non-congregate shelter), facilities such as nursing homes, residential treatment facilities, correctional facilities, halfway houses, and housing for students or dormitories do not constitute housing in the HOME-ARP program. However, HOME-ARP funds may be used to acquire and rehabilitate such structures into HOME-ARP rental housing.”

Non-congregate shelter funded with HOME-ARP must have in-unit sanitary facilities. Food preparation areas, if any, must contain suitable space and equipment to store, prepare, and serve food in a safe and sanitary manner.

All HOME-ARP-funded activities must continue for a minimum of 30 years and serve households specified by ARP as qualifying populations:

- Homeless as defined by 24 CFR 91.5;
- At Risk of homelessness as defined by 24 CFR 91.5;
- Fleeing, or Attempting to Flee, Domestic Violence, Dating Violence, Sexual Assault, Stalking, or Human Trafficking as defined by HUD; or
- Other Populations where providing supportive services or assistance under section 212(a) of 42 U.S.C. 12742(a) would prevent the family’s homelessness or would serve those with the greatest risk of housing instability.

D. Subsidy Limits.

The total development cost (TDC) of a project, which includes all costs associated with the project development as determined by MaineHousing, may not exceed a TDC index of \$295,000 per affordable rental unit and a TDC of \$150,000 per non-congregate shelter unit (if any). By default, MaineHousing’s total contribution through all resources may not exceed the TDC index cap for affordable rental units and the separately calculated TDC cap per non-congregate shelter units. The TDC index for the affordable rental unit component of any project is the weighted average of the TDC per unit and the TDC per bedroom calculated as follows:

$$([2 \times \text{TDC}/\text{number of units}] + [\text{TDC}/\text{bedroom count}]) \text{ divided by } 3.$$

Not all project costs may be eligible under the HOME-ARP program. MaineHousing may substitute other resources for HOME-ARP subsidies up to the TDC Index cap. Subsidy may come in the form of HOME-ARP, which will be zero interest forgivable debt, or repayable MaineHousing debt. This ensures that the subsidy maximizes the number of units while adequately funding them to address Maine’s housing needs and priorities. Additionally, all reserve accounts will be held by MaineHousing.

In addition to the above-referenced development costs, up to 5% of the TDC of a HOME-ARP project may be requested for a Supportive Services Reserve to assist with timing gaps in supportive services. The goal of these funds is to provide services immediately to individuals and families even if eligibility determinations take time. Any retroactive service payments will be deposited into the Supportive Services Reserve to assist future tenants with service gaps.

Additional HOME-ARP may be requested for a long-term operating escrow if the population to be served is not eligible for project-based vouchers. These requests will be considered if they are determined to be necessary in order for the proposed project to underwrite.

If final scoring results in a tie, MaineHousing may award additional scoring points to projects that use less MaineHousing subsidy per unit.

E. Process.

- 1. Pre-Application.** A completed **HOME-ARP Pre-Application** (Attachment A herein) must be received by MaineHousing no later than **Friday, April 15, 2022.**

a) Site Review and Evaluation

After MaineHousing completes a site review and evaluation for a proposed project, the applicant may submit a full application. MaineHousing will determine whether the prospective project site meets the following criteria:

- 1) is adequate in size, exposure and contour to accommodate the number and type of units proposed;
- 2) has adequate utilities and streets to serve the site;
- 3) promotes greater choice of housing opportunities and avoids undue concentration of assisted persons in areas containing a high proportion of persons with low incomes;
- 4) is accessible to social, recreational, educational, commercial, and health facilities and services comparable to facilities and services found in neighborhoods consisting largely of unassisted similar units;
- 5) provides accessibility for persons with mobility impairments at a reasonable cost;
- 6) does not raise significant environmental concerns, and
- 7) is located where travel time and cost to places of employment is not excessive.

Additionally, development and operating costs will be evaluated to ensure that there is adequate capital to fund the project and fund the ongoing operations on the indicated site. A prospective project may be deemed ineligible based upon this evaluation.

MaineHousing will notify the applicant whether the submitted application appears to meet programmatic requirements. MaineHousing may make recommendations for the full application stage.

2. Full Application

Full applications must be received by MaineHousing no later than **Monday, May 2, 2022**. The selection process is as follows:

- a) MaineHousing staff will review each application for completeness and eligibility. Incomplete or ineligible applications will not be processed further by MaineHousing and will be returned to the applicant.
- b) MaineHousing staff will score and rank applications according to the selection criteria and make funding recommendations to the MaineHousing Director.
- c) The Director will make the final determination regarding applicants selected and amounts of awards.
- d) MaineHousing will issue a Notice to Proceed to the selected applicants. The Notice to Proceed will outline the development process, note key development activities, and identify MaineHousing staff assigned to the project.
- e) The applicant will acknowledge receipt of the Notice to Proceed by providing MaineHousing a timeline for the completion of the key development activities noted in the Notice to Proceed.

3. Development Underwriting

Applicants that receive a Notice to Proceed must provide documentation required to demonstrate that the proposed project is financially, legally, physically, and operationally viable and compliant with program requirements, including that all costs are necessary and reasonable.

- a) MaineHousing staff will complete its due diligence process including an environmental review.
- b) Projects will be presented to the MaineHousing Loan Committee. The Committee will forward funding recommendations to the MaineHousing Director.
- c) Director-approved projects will be sent a term sheet including funding terms and conditions.
- d) MaineHousing will issue a closing agenda listing items needed for closing.
- e) MaineHousing will require, for HOME-ARP funding, a 30-year deferred, forgivable promissory note without interest, a mortgage, a declaration of affordability covenants and a use restriction to be recorded at the applicable registry of deeds, and other documents

and due diligence items in connection with the closing. Projects will be required to comply with affordability and other requirements for the 30-year term.

F. Required Documentation. The following documentation is **required** with the full application:

- 1) IRS 501(c)(3) tax-exemption determination letter (if applicable).
- 2) Corporate resolution demonstrating authority to undertake the project and incur the liability of financing.
- 3) Completed MaineHousing pro forma available at:
<https://mainehousing.org/docs/default-source/development/homearp-pro-forma.pdf>
- 4) Site control documentation.
- 5) Completed Checklist for Environmental Review (Attachment B herein)
- 6) A narrative that addresses each of the following items concerning the *applicant*:
 - a) legal name;
 - b) contact person, mailing address, phone, fax and e-mail address;
 - c) current legal status;
 - d) brief history, staffing levels, primary activities, geographic area of operations, previous relationship with MaineHousing, and constituency and clientele;
 - e) request for, and justification of, a capacity-building grant, if necessary;
 - f) financial statements for the most recent fiscal year (MaineHousing reserves the right to request additional financial information if the entity or the principals are not developers on which MaineHousing has previously done its due diligence);
 - g) Taxpayer Identification Number (TIN); and
 - h) any real estate assets that are in default or foreclosure with a lending institution or that are otherwise at risk of substantive financial problems.
- 7) A narrative that addresses each of the following items concerning the *project*:
 - a) legal address;
 - b) detailed description of any existing structures, including size, design, construction materials, foundation, condition, estimated age, utilities, historic use(s), accessibility, parking, and observable environmental concerns;

- c) non-residential space;
 - d) detailed scope of construction including preliminary plans, pricing, materials, and timing;
 - e) request for project-based vouchers, if any, from MaineHousing or request for an operating escrow; and
 - f) all funding requested from MaineHousing and others.
- 8) Either (i) a statement that neither the applicant, nor any principal or affiliate of the applicant, nor anyone who will be paid for work on the project has business ties, family relationships, or other close personal relationships with a current MaineHousing employee or commissioner or anyone who was a MaineHousing employee or commissioner within the past year; or (ii) a description of any such relationship.
- 9) A certification that if the applicant receives HOME-APR funds, the applicant will comply with all HOME-APR requirements. HOME-APR requirements are set forth in Section 3205 of the American Rescue Plan Act of 2021 (P.L. 117-2) and the CPD Notice: Requirements for the Use of Funds in the HOME-American Rescue Plan Program, the Maine 2020-2024 Consolidated Plan submitted to the United States Department of Housing and Urban Development (the “Consolidated Plan”) and the related 2021 Annual Action Plan and the HOME-ARP Allocation Plan amended to it; the Maine Housing Authorities Act, 30-A M.R.S.A. § 4701, et seq., MaineHousing Rule Chapter 29, Multi-family Development and Supportive Housing Loans and Grants; and MaineHousing Rule Chapter 27, Transfers of Ownership Interests, all as same may be amended from time to time.
- 10) Documentation for each of the scoring criteria as described below.

G. Scoring Criteria.

When appropriate, scoring will be based on comparisons between applications received under this RFP. Documentation received after the time of application will not be used in the scoring unless MaineHousing requested the documentation.

1. Extent to which the applicant will address the housing need and the project will provide services to qualifying populations. (Max. 15 pts.)

Applicants will receive points for projects that address the housing need of qualifying populations. The degree of need for the populations served, and appropriateness of plans for providing services to tenants, will be evaluated. Points will be provided based on the extent to which the applicant will provide housing and services that includes assistance from other entities, including rental-assistance or service contracts for the duration of the project reporting period.

2. Readiness (Max. 10 pts)

Readiness will be scored based on:

- a) Evidence of site control, such as a deed, purchase and sale agreement, or option; and a letter from the municipal code enforcement officer confirming that the proposed project complies with the local land use ordinances and is a permitted use within the applicable zone.
- b) Design and engineering documents prepared by contractors, engineers, and architects familiar with MaineHousing construction standards, including preliminary design, proposed scopes of work, conceptual site plans, floor plans, typical building elevations, recent photographs, specifications, and detailed cost estimates.
- c) Development budget demonstrating viability, reasonableness, and competitiveness in the local market.
- d) Identification of the entity to provide services to the qualifying population
- e) Applicant's history of successfully developing affordable or supportive housing in a timely fashion

3. Development Team Capacity (Max. 10 pts.)

The development team may include consultants, design professionals, contractors and other real estate professionals. Development team capacity will be based on the following:

- a) financial, staffing and managerial capacity to develop housing projects within budget and timelines, including the current pipeline of projects in development;
- b) experience in owning, managing, and/or developing real estate assets;
- c) experience with public-sector housing development programs;
- d) experience addressing the service needs of persons experiencing homelessness and/or other vulnerable populations; and
- e) experience with partnerships with service providers developed in order to address the needs of the project's residents.

4. Additional Funding (Max. 7 pts.)

Applicants will be evaluated on the quantity, quality, and timeliness of leveraged funding (other than MaineHousing resources or MaineHousing project-based rental assistance) committed to the proposed project. Evidence of commitment including sources and timing for all leveraged funds for development capital or operations is required. Non-federal leveraged funds will be

given greater weight than federal funds, and municipal and county American Rescue Plan Act funds will be given greater weight than other federal funds.

5. Priority based upon underserved areas (Max. 5 pts.)

Applicants will receive points for providing evidence that demonstrates that the population who will live in the project is underserved in the area where the project is located.

6. MaineHousing Priorities (Max. 3 pts.)

Applicants must describe which of the following Consolidated Plan priorities will be addressed and how:

- a) improve and preserve the quality of housing;
- b) expand affordable housing opportunities; and/or
- c) help Maine people attain housing stability.

H. Construction Standards

Projects must be designed and constructed in accordance with MaineHousing’s Quality Standards and Procedures Manual - located on the MaineHousing website at:

https://www.mainehousing.org/docs/default-source/development/construction-services/2021-quality-standards-and-procedures-manual.pdf?sfvrsn=dc258915_6

In addition to the standards, codes, and regulations covered in the MaineHousing Quality Standards and Procedures Manual, MaineHousing will require:

- 1. An estimate (based on age and condition) of the remaining useful life of the major building systems upon project completion, and
- 2. An adequate replacement reserves account for future physical needs during the affordability period.

Projects with more than 25 units will require a Capital Needs Assessment that determines the timing and cost of work to be performed.

Projects that require the adaptive reuse of an existing hotel may be exempt from the minimum square footage requirements set forth in the MaineHousing Quality Standards and Procedures Manual.

Lead-based Paint. Housing assisted with HOME-ARP funds will comply with the requirements of HUD's lead-based paint rules (Lead Disclosure; and Lead Safe Housing (24 CFR part 35)), and EPA's lead-based paint rules (e.g., Repair, Renovation and Painting; Pre-Renovation Education; and Lead Training and Certification (40 CFR part 745)).

The following is required for rehabilitation activities assisted with these funds:

1. Prior to the start of any rehabilitation work at a project site, a lead-based paint (LBP) risk assessment by a Lead Risk Assessor certified by the Maine Department of Environmental Protection (the Maine DEP), and paint testing on painted surfaces to be disturbed or replaced during rehabilitation activities, including housing units, common areas servicing the units and exterior painted surfaces, will be conducted in accordance with the Part 35 requirements and established protocols under the Maine DEP's Lead Management Regulations – Chapter 424 (Maine DEP Lead Regulations), including a written report with findings, conclusions and recommendations.
2. If the LBP risk assessment indicates the presence of LBP, the Part 35 provisions for the level of federal rehabilitation assistance applicable to the project, and any related requirements of the Maine DEP Lead Regulations, will apply to the project.

I. Environmental Requirements and Choice-Limiting Actions

MaineHousing will conduct an environmental review (ER) of all projects receiving a Notice to Proceed once a project developer has demonstrated a viable project. The environmental requirements for HOME-ARP-funded projects must be done in accordance with 24 CFR Part 58. Projects using multiple funding sources may require multiple ERs. Please see Attachment B for the Part 58 ER checklist.

There are also differences in how HUD's prohibition on taking choice-limiting actions operates when HOME-ARP funds will be used alone or combined with other HUD funds in a new construction or rehab project. These differences, and their effect, are:

1. HUD's prohibition on taking choice-limiting actions applies to HOME-ARP projects from the time that MaineHousing receives an application for HUD funding prior to the completion of the Part 58 ER and environmental clearance for the project, the developer and all other participants in the development process for the project are prohibited from acquiring the project site and from committing or expending any source of funds, entering into binding contracts or commitments, or taking any physical action on the project site or in connection with the project. Participants in the development process for a project include the applicant for financing and a developer or sponsor of the project and any of their affiliates participating in the project, any construction manager, general contractor, or subcontractor, and any other consultant for the project. Other parties may also be participants in the development process for a project, depending on their role.

Choice limiting actions include, but are not limited to, the following activities. ***Please note:*** (a) the list below is not all-inclusive and (b) the age or physical condition of a building or other structure is not relevant in determining whether a choice-limiting action has occurred.

- Entering into, amending, extending or renewing an option agreement that does not comply with HUD's requirements
- Entering into, amending, extending or renewing a purchase and sale agreement
- Purchasing or leasing the project site, or any part of it

- Acquiring or granting an easement
- Entering into an Agreement to Enter into a Housing Assistance Payments Contract (AHAP) or a Housing Assistance Payments (HAP) Contract
- Purchasing or otherwise procuring construction materials for the project
- Going out to bid for any work relating to the project, including but not limited to construction, rehabilitation, demolition, or environmental remediation
- Demolition
- Environmental remediation, such as lead, mold, asbestos or soil remediation
- Utility or other infrastructure construction or installation, such as facilities for sewer, water, electric, gas, cable, Internet or telephone service, drainage, stormwater management, and roads and sidewalks, etc.
- Excavation, earth removal, grading, paving, filling, clearing, dredging or draining
- Construction of new buildings or other structures and construction of any addition to an existing building
- Moving, rehabilitation, renovation, alteration, reconstruction, or replacement of existing buildings or parts of existing buildings
- Burying, replacing or relocating fuel tanks or converting a heating system on the project site or off-site
- Any other activity that has a physical effect on the land or buildings on the project site

To avoid the risk of losing funding for a project because of a violation of HUD's prohibition on taking choice-limiting actions, please contact MaineHousing if you have any questions on whether a contemplated action is allowed prior to environmental clearance.

J. Uniform Relocation Assistance

HOME-ARP funding is subject to Uniform Relocation Assistance implementing regulations at 49 CFR part 24.

K. Non-discrimination Notice

MaineHousing does not discriminate on the basis of race, color, religion, sex, sexual orientation, gender identity or expression, marital status, national origin, ancestry, physical or mental disability, age, familial status or receipt of public assistance in the admission or access to or treatment in its programs and activities. In employment, MaineHousing does not discriminate on the basis of race, color, religion, sex, sexual orientation, gender identity or expression, national origin, ancestry, age, physical or mental disability or genetic information. MaineHousing will provide appropriate communication auxiliary aids and services upon sufficient notice. MaineHousing will also provide this document in alternative formats upon sufficient notice.

MaineHousing has designated the following person responsible for coordinating compliance with applicable federal and state nondiscrimination requirements and addressing grievances: Lauren Bustard, Maine State Housing Authority, 26 Edison Drive, Augusta, Maine 04330, Telephone Number 1-800-452-4668 (voice in state only), (207) 626-4600 (voice) or Maine Relay 711.

Approved:

ATTACHMENT A
2022 HOME-ARP Pre-Application

Applicant submissions to the MaineHousing 2022 HOME-ARP Request for Proposals must include this completed Pre-Application and be submitted prior to 5:00 P.M. Friday, April 15, 2022.

Please submit completed Pre-Applications electronically, and send any questions to Kelly Purington, Multifamily Underwriter Manager, at kpurington@mainehousing.org or (207) 626-4642.

Upon receipt of the Pre-Application, MaineHousing will contact the applicant to schedule an inspection of the property.

Please complete the following:

Contact Information

Applicant:

Contact Person:

Contact Phone Number:

Contact e-mail:

Project Location

Town/City:

Street Address:

Tax Map References:

Project Information (Executive Summary)

How will this project help Maine people who are experiencing, or at risk of experiencing, homelessness, attain housing stability?

Please provide a narrative that also addresses the following:

- Number of units and bedroom configurations
- Type of activity (acquisition/rehabilitation/adaptive re-use, new construction)
- Number of accessible units that will be produced
- Number of on-site parking spaces
- Local land use conformity, if known
- Summary of any known or suspected environmental concerns.

Attachments

Include the following attachments, none of which require the services of an architect or engineer:

- a) Site location map (Google Maps or similar internet site location tool)
- b) Floor plan (may be found on broker's listing sheet or town tax assessment records)
- c) Photographs of property from three angles at street access

Submit any existing sketched or to-scale site plans indicating the approximate location of property lines, easements or encroachments, zoning setback lines, adjacent streets, points of vehicular entry and exit, proposed building footprints, proposed parking footprint (with spaces labeled), and capacities/sizes of existing utilities.
