Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

(1.) ORGANIZATION AND NATURE OF OPERATIONS

The Maine State Housing Authority (MaineHousing) is a public corporation and an instrumentality of the State of Maine established under the provisions of the *Maine Housing Authorities Act*, Title 30-A, Chapter 201, of the Maine Revised Statutes, as amended. MaineHousing is authorized to issue bonds for the purchase or origination of notes and mortgages on single-family and multi-family residential properties for the purpose of providing housing for persons and families of low income in the State of Maine. MaineHousing also administers various housing and energy related state and federal programs and collects and disburses federal rent subsidies for low-income housing.

For financial reporting purposes, MaineHousing is considered a component unit of the State of Maine and the financial condition and results of operations of MaineHousing are included in the State's financial statements.

(2.) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

MaineHousing's financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) statements and are comprised of three components: 1) agency-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

The financial statements include all the organization's activities and functions for which MaineHousing is financially accountable. Determination of financial accountability includes among other factors, appointment of a voting majority of the component's governing body and (1) ability to impose its will over the component unit or (2) the possibility that the component unit will provide a financial benefit to, or impose a financial burden on, MaineHousing. Based on the preceding criteria, the accompanying financial statements do not include the financial activities of any entity other than MaineHousing.

The Agency-wide financial statements are comprised of a Statement of Net Position and Statement of Activities, which are prepared using the economic resources measurement focus and the accrual basis of accounting. These statements reflect all of the assets, liabilities, revenues, expenses, deferred inflows, deferred outflows, gains and losses of business-type and governmental activities. Interfund balances entirely within the proprietary funds and governmental funds are eliminated from the Statement of Net Position; remaining amounts are shown as Internal Balances.

The business-type activities, which include single-family and multi-family loan programs, are classified as proprietary funds. Proprietary funds are reported using the accrual basis of accounting and revenues are recorded when earned and expenses when incurred. The governmental activities reflect the administration of the various programs for the State of Maine and the federal government. Governmental funds are reported using the modified accrual basis and revenues are recorded when they become available and measurable and expenses when incurred. Revenues from grants and programs are generally considered "available" if eligibility and time restrictions have been satisfied and if received within three months of the balance sheet date. Grants received in advance of the period in which they can be used are reported as deferred inflows of resources.

Separate fund financial statements are provided for proprietary and governmental funds. The fund financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to governmental entities, which provides that accounting systems be organized by funds to account for specific activities consistent with legal and operating requirements. Major individual governmental funds and all proprietary funds and fund groups are reported as separate columns in the fund financial statements. Certain insignificant indirect costs are allocated to the funds.

(IN THOUSANDS OF DOLLARS)

Fund Structure

PROPRIETARY FUNDS

Financial activities operated similarly to private business enterprises and financed through fees and charges assessed primarily to users of loans and other lender services are presented as proprietary funds. MaineHousing's proprietary funds are as follows, all of which are considered major funds:

Mortgage Purchase Fund

This fund consists of accounts established by the General Mortgage Purchase Bond Resolution. Pursuant to the Mortgage Purchase Program, MaineHousing is authorized to purchase or originate first lien mortgages on single-family and multi-family residential properties. Proceeds from the sale of mortgage revenue bonds, the debt service requirements of the bond indebtedness, and mortgage loans made from bond proceeds are recorded in this fund.

Bondholder Reserve Fund

This fund consists of accounts established by the General Authority Bondholder Reserve Fund Resolution and is pledged to replenish any deficiency in the debt service reserve fund of the General Mortgage Purchase Bond Resolution.

General Administrative Fund

This fund consists of account balances that are not directly pledged to or restricted by a particular bond resolution or program and generates fee and interest income. Revenues not specifically pledged for the repayment of bonds or notes are recorded in this fund.

GOVERNMENTAL FUNDS

Activities financed by grant and program agreements with the federal government and appropriations from the State of Maine Legislature are presented as governmental funds. None of the governmental funds are legally required to adopt a formal budget. MaineHousing's governmental funds are as follows, all of which are considered major funds except the Other Federal and State Programs Fund:

Home Fund

The Maine State Legislature authorized the creation of the Housing Opportunities for Maine (HOME) Program to promote and create affordable housing. The program is funded by a portion of the Real Estate Transfer Tax levied by the State of Maine and by appropriations. These funds may be used in conjunction with MaineHousing's other housing resources. Activities associated with the Shelter Operating Subsidy Program, which is funded by the State of Maine and provides funding for emergency shelters that serve Maine's homeless citizens, are also recorded in this fund.

Section 8 Housing Programs

This fund group consists of activity related to MaineHousing's administration of various Department of Housing and Urban Development (HUD) Section 8 programs. These are federal programs that provide rental subsidies to landlords to preserve low-income rental units and also provide funding to tenants to assist with rent payments. The program funding levels are established by the federal government annually. MaineHousing receives annual fees from HUD for the administration of these programs. These programs consist of the following:

- Moderate Rehabilitation
- New Construction and Substantial Rehabilitation
- Section 811 Project Rental Assistance
- Housing Choice Voucher
- Performance Based Contract Administration

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

Low Income Home Energy Assistance Program

MaineHousing is the designated administrator of the Low Income Home Energy Assistance Program for the State of Maine. This program is federally funded through the Department of Health and Human Services. Under this program, funds are provided to low income homeowners and renters to assist with the payment of heating costs. The funding level is established annually by the federal government and MaineHousing receives annual fees for the administration of the program.

Maine Energy, Housing and Economic Recovery Fund

The purpose of the Maine Energy, Housing and Economic Recovery Fund (MEHER) is to create capital funding sources to provide affordable housing and to improve energy efficiency of residential housing in the State of Maine. The fund consists of accounts established by the MEHER General Indenture. The revenue anticipation bonds issued under the MEHER General Indenture are liabilities of the fund and the debt service for these bonds is paid by a source of revenue from the State of Maine.

The deficit in this fund is due to timing differences between the expending of funds from bond proceeds on program activities and the receipt of revenues from the State of Maine, which is based on debt service schedules. The deficit will be eliminated over time as capital funds available for programs are depleted and annual revenues received from the State of Maine exceed expenditures.

Other Federal and State Programs

MaineHousing administers various other federal and state housing and energy related programs and grants. This fund group records the activity and reflects the consolidation of these programs and grants. Program administration is governed by the appropriate federal regulations or state laws. The annual program and grant funding levels are set by the appropriate federal or state government. MaineHousing receives annual fees for the program administration for most of the federal programs and grants. Federal and state programs consist of the following, which are considered non-major funds:

U.S. Department of Housing and Urban Development

- Emergency Solutions Grant Program
- HOME Investment Partnerships Program
- National Housing Trust Fund
- Lead-Based Paint Hazard Control Program
- Homeless Management Information System
- Housing Counseling Assistance Program
- Family Self-Sufficiency Program
- Continuum of Care - Planning Grant
- Continuum of Care - Rental Assistance Program

U.S. Department of Energy

- Weatherization Assistance Program
- Weatherization Assistance Program - Training Centers and Programs

U.S. Department of Health and Human Services

- Weatherization / Central Heating Improvement Program
- Temporary Assistance for Needy Families (Via State of Maine)

State of Maine

- Home Modification Program
- Arsenic Remediation Program
- Natural Disaster Housing Assistance Fund
- Consumer Residential Opportunities Program
- Indian Housing Mortgage Insurance Program
- Lead Abatement Program

Private

- Low Income Assistance Plan
- Verified Emission Reduction Program

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

Net Position

In the agency-wide and proprietary fund financial statements, net position is displayed in three components as follows:

Net investment in capital assets – This consists of capital assets, net of accumulated depreciation, less the outstanding balances of any bonds, notes, or other borrowings that have proceeds disbursed for the acquisition, construction, or improvement of those assets.

Restricted – This consists of activities that are legally restricted by outside parties or by law through constitutional provisions or enabling legislation. For business-type activities, the net position is restricted by bond resolutions for the acquisition of loans, payment of debt service and payment of operating costs. For governmental activities, the net position is restricted by state statutes or federal regulations and program agreements for specific program purposes.

Unrestricted – This consists of activities that do not meet the definition of “restricted” or “net investment in capital assets”.

Fund Balances

In the governmental funds financial statements, fund balances are reported as either restricted for housing and energy related programs, nonspendable in current form due to the long term nature of certain assets, or unassigned for any residual deficit fund balances. Generally, if unrestricted fund balances are available they are used after assigned or restricted amounts.

Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents include cash on hand and held by banks in demand deposits and savings accounts.

Investments

Money market funds, repurchase agreements and certificates of deposit that have a remaining maturity at time of purchase of one year or less are reported at amortized cost. Investments not reported at amortized cost are reported at fair value. Unrealized gains and losses due to fluctuations in market values and gains and losses realized upon sale are reported as net increases or decreases in the fair value of investments. Interest received that is required by federal programs to be spent on program activities is deferred and recorded as a payable to the federal government.

Mortgage Notes Receivable

Mortgage notes receivable are carried at their uncollected principal balance less allowances for loan losses. The recording of interest income on problem loans ceases when collectability within a reasonable period of time becomes doubtful. Program income received for revolving loan programs are recorded as unearned income. MaineHousing reclassifies its liability for amounts due under revolving loan programs relating to forgivable loans and loans with no payments due until sale of the collateral or maturity of the loan (usually 30 years from origination) to reduce the associated loan balances. MaineHousing believes this presentation better reflects the underlying economics of the loan.

Allowances For Losses On Loans

MaineHousing has established allowances for losses on mortgages and other notes receivable. The allowances are established through provisions for losses on loans charged to expenses. Losses are charged against the allowances when MaineHousing believes that collection of the loan principal is unlikely.

The allowances are amounts that MaineHousing believes will be adequate to absorb losses based on evaluations of collectability and prior loss experience. The evaluation takes into consideration such factors as the nature and volume of the portfolio, extent of available mortgage insurance, collateral, delinquencies and current economic conditions that may affect the borrowers' ability to pay.

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

Assets Held for Sale

Multi-family residential properties acquired for the purpose of preserving affordable rental housing and intended for sale are carried at the lower of cost or estimated fair value. Properties are typically held for short durations. Adjustments to carrying values and gains or losses on the disposition of properties are reflected in the Statements of Revenues, Expenses and Changes in Net Position in the year realized.

Capital Assets

Capital assets consisting of building, land, equipment and leasehold improvements are stated at cost less accumulated depreciation and are reported in the agency-wide and proprietary funds financial statements. MaineHousing capitalizes assets with an initial cost of one thousand dollars or more. Depreciation is computed using the straight line method over the estimated useful lives of the assets, which range from three to forty years. Land and assets that are being developed are not depreciated.

MaineHousing capitalizes the difference between interest income and interest expense associated with tax-exempt borrowings used for the acquisition and development of capital assets. Interest is capitalized until development is completed and the assets are ready for their intended use. At June 30, 2019, net interest expense of \$61 has been capitalized.

Other Real Estate Owned

Other real estate owned consists of single-family and multi-family residential properties acquired through foreclosure, or acceptance of a deed in lieu of foreclosure and are carried at the lower of cost or fair value less estimated costs to sell. Losses arising from the acquisition of other real estate owned are charged to the allowance for loan losses. Operating expenses, subsequent provisions to reduce the carrying value, and any gain or loss on disposition of the property are reflected in the Statement of Revenues, Expenses and Changes in Net Position in the year incurred or realized.

Bond Discount, Premium, Issuance Costs and Deferred Amounts on Refunding

Bond discounts and premiums are reflected as a component of bonds payable and are deferred and amortized over the lives of the bonds using a method that approximates the effective interest method. Gains and losses on debt refundings are amortized as a component of interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter and reflected as a deferred outflow of resources. Bond issuance costs are expensed in the year issued.

Loan Origination Fees and Costs

MaineHousing pays origination costs at the time it purchases single-family mortgage loans. These and other program costs, including closing cost assistance to borrowers, paid in connection with acquiring certain single-family loans, are expensed in the year of origination.

MaineHousing may receive points in connection with the origination of certain mortgage loans, which are essentially yield adjustments on the loans. Points received for single-family loans are reflected as a deferred inflow of resources and amortized as a component of interest income using the effective interest method over the life of the mortgages. When a loan is paid off prior to maturity, all unamortized deferred points are recognized immediately as interest income. MaineHousing may charge a fee at the time that a commitment is made to originate a mortgage on a multi-family loan. These fees are recognized as income in the year the commitment is made.

Revenues, Expenses and Expenditures

Program revenues in the agency-wide Statement of Activities are reported in three categories including (1) charges for services, (2) investment income and (3) grants and contributions. Charges for services include all revenues from mortgage loans and program administration fees. Investment income consists of earnings from non-mortgage investment assets. Grants and contributions include revenues from other governments and organizations that are restricted for use in a particular program. All revenues are recorded as income when earned and the associated expenses are recorded as incurred.

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

The proprietary funds' primary sources of operating revenues are income from mortgage loans and other permitted investments. Operating expenses in the proprietary funds consist of expenses incurred for originating and servicing loans, bond interest and program administration.

Revenues in the governmental funds are derived from grant and program agreements with the federal government, appropriations from the Maine State Legislature, and other organizations. MaineHousing also receives fee income for program administration. Expenditures in the governmental funds are all current operating expenditures and consist primarily of program disbursements and administration charges.

Derivatives and Hedging Instruments

MaineHousing enters into various interest rate swap agreements in order to manage risks associated with interest on its variable rate bond portfolio. MaineHousing recognizes the fair value of swap agreements as either an asset or liability on its Statement of Net Position with the offsetting gains or losses as either deferred inflows or outflows of resources, if deemed an effective hedge. If swap agreements are not effective hedges, interest expense is increased or decreased by the change in the fair value. MaineHousing measures the effectiveness of its interest rate swap agreements in total whereby all the swaps are used to hedge interest expense on a portion of the total variable rate bonds equal to the notional amount of the swaps. Hedge effectiveness is determined by using the regression analysis and synthetic instrument methods. MaineHousing's swap agreements constitute an effective hedge for the hedged portion of the variable rate bond portfolio at June 30, 2019.

Fair Value Methodology

Generally accepted accounting principles establishes standards for determining fair value measurements for accounting and financial reporting purposes and provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements and also establishes a three-tier hierarchy that prioritizes the inputs used to measure fair value as follows:

- **Level 1 inputs** are observable, quoted prices in active markets for identical assets or liabilities;
- **Level 2 inputs** are directly or indirectly observable, but not on level 1; and
- **Level 3 inputs** are all inputs that are unobservable.

MaineHousing's assets and liabilities carried at fair value are interest rate swaps and investments.

Defined Benefit Pension Plan

MaineHousing is a participating local district (PLD) member of the Maine Public Employees Retirement System (MainePERS) PLD Consolidated Retirement Plan and employees may participate in a defined benefit plan offered by MainePERS. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of MainePERS' PLD Consolidated Plan have been determined on the same basis as they are reported by MainePERS. For this purpose, benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with the benefit terms. Investments at MainePERS are reported at fair value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the statements and the reported amounts of revenues, expenses and expenditures during the reporting year. Material estimates that are particularly susceptible to significant change in the near-term relate to the determination of the allowance for losses on loans and fair value of interest rate swaps. Actual results could differ from estimates.

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

New Accounting Standards

The following GASB Statements that have been issued are under evaluation by MaineHousing:

GASB Statement No. 83, *Certain Asset Retirement Obligations*; GASB Statement No. 84, *Fiduciary Activities*; GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*; and GASB Statement No. 90, *Majority Equity Interest – an amendment of GASB Statements No. 14 and No. 61* are effective for the year ending December 31, 2019. GASB Statement No. 87, *Leases*; and GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period* are effective for the year ending December 31, 2020. GASB Statement No. 91, *Conduit Debt Obligations* is effective for the year ending December 31, 2021.

MaineHousing has not adopted these standards and is evaluating the impact they may have on its financial statements.

(3.) CASH AND INVESTMENTS

At June 30, 2019, the carrying amount of MaineHousing's bank deposits was \$1,840 and the bank balance was \$2,089. The difference between the carrying amount and the bank balance is a result of transactions in transit. Of the bank balance, \$392 was covered by federal depository insurance and \$1,697 was collateralized by money market funds for which the securities are held in the bank's name at the Federal Reserve Bank.

The General Mortgage Purchase Bond Resolution permits MaineHousing to invest in direct obligations of, or obligations guaranteed by, the United States of America, certain government-sponsored enterprises and the State of Maine "permitted investments". The resolution also permits MaineHousing to invest in certificates of deposit, repurchase agreements and other similar banking arrangements that are collateralized by permitted investments.

MaineHousing has a formal Investment Policy that outlines its investment practices and policies. The primary purpose of the policy is to ensure safety of principal while managing liquidity to pay MaineHousing's financial obligations. MaineHousing's deposit policy is to have its deposits covered by insurance, collateralized or deposited in well capitalized institutions.

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

MaineHousing's investment balances and stated maturities as of June 30, 2019 are presented in the following table. Actual maturities may differ due to investments being called by the issuer.

Investment Type	Carrying Amount	Investment Maturities in Years			
		Less than 1	1-5	6-10	More than 10

MaineHousing generally invests in repurchase agreements and money market funds for short-term investments, which are not credit rated and are continuously and fully secured by permitted investments. It is MaineHousing's policy to require that collateral be held by MaineHousing's trustee in MaineHousing's name, wherever practicable.

A market approach is used to determine fair value using Level 2 inputs for investments carried at fair value. Prices and other relevant information are generated by market transactions involving identical or comparable investments.

At June 30, 2019, \$310,110 was invested in short-term repurchase agreements, money market funds, and government sponsored enterprises with maturity dates of less than one year and interest rates up to 2.36%. Investments other than repurchase agreements and money market funds are registered in MaineHousing's name. Investments issued by Federal Farm Credit Bank (FFCB), Federal National Mortgage Association (FNMA), and Federal Home Loan Bank (FHLB) make up 15%, 9%, and 43% of total investments, respectively, in the Mortgage Purchase Fund. Investments issued by FFCB make up 13% of total investments in the General Administrative Fund.

At June 30, 2019, \$10,926 of proceeds from a loan agreement is invested in eight non-negotiable certificates of deposit. The certificates have interest rates that range from 2.15% to 2.54% and will mature at various dates from July through December 2019. The certificates are not credit rated and are being held by its bank trustee in MaineHousing's name.

(5.) BONDS AND NOTES PAYABLE

MaineHousing issues bonds that pay interest that is subject to Alternative Minimum Tax (AMT), bonds that pay interest that is not subject to this tax (Non-AMT) and federally taxable bonds. Interest paid on AMT bonds is treated as a preference item in calculating the tax imposed on individuals and corporations under the Internal Revenue Service Code. MaineHousing's AMT, Non-AMT and federally taxable bonds are denoted for each series or sub-series below.

The interest rates presented in the table below for variable rate bonds represent the rate at June 30, 2019. The Single-Family (S/F) and Multi-Family (M/F) Mortgage Bonds Payable outstanding at June 30, 2019 are as follows:

	Original Amount Issued	Amount Outstanding	Interest Rate(s)	Maturities/ Sinking Fund Installments on Bonds Outstanding	Range of Required Annual Principal Payments on Bonds		
PROPRIETARY FUNDS							
MORTGAGE PURCHASE FUND

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

The following table summarizes the debt activity for the period ended June 30, 2019:

<u>Fund</u>	<u>Outstanding at December 31, 2018</u>	<u>Issuance</u>	<u>Retirement</u>	<u>Outstanding at June 30, 2019</u>
Mortgage Purchase Fund	\$1,401,715	\$79,465	(\$47,015)	\$1,434,165
Maine Energy, Housing & Economic Recovery Fund	29,215	0	(3,245)	25,970
Total	\$1,430,930	\$79,465	(\$50,260)	\$1,460,135

Interest on bonds is payable semi-annually for the Mortgage Purchase Fund and the Maine Energy, Housing & Economic Recovery Fund. Scheduled principal payments on bonds are due November 15 for the Mortgage Purchase Fund and June 15 for the Maine Energy, Housing & Economic Recovery Fund.

The interest calculations shown in the table below are based on the variable rate in effect at June 30, 2019 and may not be indicative of actual interest expense that will be incurred. As rates vary, variable rate bond interest payments and net swap payments will vary. The following table provides a summary of MaineHousing's bond debt service requirements and net interest rate swap payments through 2023 and in five-year increments thereafter to maturity:

Year(s)	<u>Mortgage Purchase Fund</u>					<u>Maine Energy, Housing & Economic Recovery Fund</u>	
	<u>Fixed and Variable Unswapped</u>		<u>Variable Swapped</u>		<u>Swaps</u>	<u>Fixed</u>	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>	<u>Net Interest</u>	<u>Principal</u>	<u>Interest</u>
2019	\$28,780	\$18,245	\$3,315	\$3,867	\$413	\$0	\$488
2020	35,045	39,946	3,310	3,898	543	3,340	921
2021	43,220	39,236	230	3,804	694	3,450	810
2022	43,645	38,239	255	3,801	687	3,565	696
2023	45,605	37,241	285	3,796	553	3,680	579
2024-2028	216,190	168,996	1,615	18,896	2,103	11,935	763

2034-2038	216,280	90,224	58,520	14,818	752	0	0
2039-2043	197,465	51,270	16,000	11,274	0	0	0
2044-2048	135,775	19,275	59,210	6,497	0	0	0
2049-2053	48,745	3,609	19,790	708	0	0	0
Total	\$1,254,445	\$638,250	\$179,720	\$89,502	\$7,521	\$25,970	\$4,257

MaineHousing's bonds are a special obligation of MaineHousing and do not constitute a debt or liability of the State of Maine. The bonds are secured in accordance with bond resolutions. Security for bonds in the Mortgage Purchase Fund includes the mortgage loans made or purchased under the resolution and all monies and investments in the fund and accounts pledged under the resolution. Bonds in the Mortgage Purchase Fund may be redeemed in excess of the annual maturities in accordance with the terms of the resolution. Bonds in the Maine Energy, Housing & Economic Recovery Fund are secured by a portion of the Real Estate Transfer Tax revenues collected by the State of Maine and the bonds may not be redeemed in excess of the annual maturities until June 15, 2020.

Notes Payable

Notes payable outstanding at June 30, 2019 are recorded in the General Administrative Fund and are as follows:

A \$4,200 note payable to the Federal Home Loan Bank (FHLB) at a fixed rate of 0%, maturing December 28, 2021. The note is collateralized with a \$5,014 Federal Farm Credit Bank debt security that is being held in trust in MaineHousing's name.

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

The proceeds from this note are to be used exclusively in accordance with FHLB's *Helping to House New England* program, which is designed to support affordable housing initiatives through the six New England Housing Finance Agencies.

A \$16,000 note payable to TD Bank, N.A., which matures on November 1, 2033 and has interest only payments until December 31, 2019 at an interest rate of 2.74%. From January 1, 2020 until maturity, the interest rate is fixed at 3.20% and principal and interest payments are due monthly based on a 20-year amortization.

The proceeds from this note are for the acquisition and rehabilitation of an office building for MaineHousing. Loan proceeds are invested in non-negotiable certificates of deposit held with the lender and will be disbursed for intended use when needed and in accordance with a disbursement schedule set forth in the loan agreement. At June 30, 2019, \$5,200 of loan proceeds have been disbursed.

The following table provides a summary of note payment requirements through 2023 and in five-year increments thereafter to maturity:

Year(s)	Principal	Interest	Total
2019	\$0	\$444	\$444
2020	529	507	1,036
2021	4,796	493	5,289
2022	615	474	1,089
2023	635	453	1,088
2024-2028	3,503	1,941	5,444
2029-2033	10,122	1,323	11,445
Total	<u>\$20,200</u>	<u>\$5,635</u>	<u>\$25,835</u>

Moral Obligation Debt

The reserve funds of the Mortgage Purchase Fund are secured by a non-binding obligation (moral obligation) from the State of Maine to replenish by appropriation any deficiency in such reserve funds. MaineHousing is authorized to have an aggregate amount not to exceed \$2,150,000 of outstanding bonds secured by this obligation. Of that amount, \$1,434,165 was outstanding at June 30, 2019.

Other Debt

MaineHousing uses its tax-exempt debt issuing authority to provide financial assistance to private sector developers for the acquisition and rehabilitation, or the construction of multi-family housing projects serving low-to-moderate income households. The debt, which is referred to as conduit debt, is collateralized by revenues generated by the properties financed and is repayable solely from payments received on the underlying mortgage loans and any specific third-party credit enhancement associated with the individual financings. MaineHousing has a total of \$29,092 outstanding at June 30, 2019. The debt does not constitute a liability or a pledge of faith and credit of MaineHousing and is not reported in the accompanying financial statements.

(6.) INTEREST RATE SWAP AGREEMENTS

MaineHousing has twelve interest rate swap agreements (swaps) with five counterparties as of June 30, 2019. The objective of the agreements is to attain a synthetic fixed interest rate on a portion of its variable rate bonds at a cost expected to be less than rates associated with fixed-rate debt. The swap agreement terms state MaineHousing is to make semi-annual fixed interest rate payments at a specified rate on a notional principal amount and in exchange receive semi-annual payments based upon either the thirty-day or ninety-day London InterBank Offered Rate (LIBOR) or the Securities Industry and Financial Markets Association Municipal Swap Index (SIFMA).

The swaps have an aggregate negative fair value of \$10,062 at June 30, 2019. During 2019, the fair value of the swaps decreased by \$5,443. The fair value was estimated using a zero-coupon method and level 3 inputs.

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

This method calculates the future net settlement payments required by the swaps, assuming that the current forward rates implied by the current yield curve correctly anticipate future spot interest rates. These payments are then discounted using spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swap. These amounts are adjusted for estimated unwinding costs.

The swaps have been determined to constitute an effective hedge of a portion of the variable rate bond portfolio equal to the notional amount of the swaps at June 30, 2019 by using the regression analysis and synthetic instrument methods. The aggregate fair value is classified as a derivative instrument liability and a deferred outflow of resources, which represents the accumulated decrease in fair value. Variable rate bonds outstanding at June 30, 2019 total \$289,720.

The following table contains the terms, fair values, and credit ratings of the swaps as of June 30, 2019. Specific swaps are assigned to certain debt issuances for arbitrage purposes. The credit ratings were issued by Moody's Investor Services and Standard & Poor's, respectively.

Related Debt Issuance	Current Notional Amount	Effective Date of Swap	Fixed Rate Paid	Variable Rate Received	Fair Value	Swap Termination Date	Counterparty Credit Rating
2005 Series B	\$6,205	11/17/2015	1.41%	100% of 90 day LIBOR	\$37	11/15/2020	Aa2/AA-

Totals	<u>\$40,000</u>				<u>\$0</u>		

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

Credit Risk – The swaps contain varying collateral agreements with the counterparties in order to mitigate the potential for credit risk. The requirements of the collateral agreements are met as of June 30, 2019. MaineHousing is not exposed to credit risk for the swaps that have negative fair values. MaineHousing is exposed to credit risk on swaps that have a positive fair value. At June 30, 2019, there are three swaps that have positive fair values totaling \$76. This amount represents MaineHousing's credit exposure to the related counterparties and the maximum loss that would be recognized at the reporting date if the counterparty failed to perform as contracted. Fair value is only a factor upon termination.

Basis Risk – The floating rate payments provided by the counterparties are based upon either the SIFMA index or the LIBOR index. The LIBOR rate will be adjusted on a monthly basis, except for 2005 Series B, 2015 Series E-3, and 2017 Series G-1, which are adjusted on a quarterly basis. MaineHousing's floating rate bonds will have rates adjusted weekly. MaineHousing's bonds are expected to track with the SIFMA Index, which differs from the LIBOR index. If the floating rate tax exempt bonds, which should correspond to the SIFMA index, trade at a value significantly different than their historical relationship to LIBOR, the net cost to MaineHousing could increase or decrease. As of June 30, 2019, the thirty day LIBOR rate and the ninety day LIBOR rate were 2.40% and 2.32%, respectively and the SIFMA rate was 1.90%.

Termination Risk – In addition to the optional terminations embedded in some of MaineHousing's swap agreements, agreements may be terminated in whole or in part prior to the respective maturities of the bonds under certain circumstances (including certain events of default with respect to MaineHousing or the swap providers). Following certain terminations of the swap agreements, either MaineHousing or the swap providers, as applicable, may owe a termination payment equal to the fair value of the swap to the other, depending upon market conditions and the events that caused such swap agreements to terminate. Under certain circumstances, this termination payment could be substantial. Such termination payment by MaineHousing would be payable on a basis subordinate to the payments on the bonds.

Rollover Risk – MaineHousing is exposed to rollover risk on swaps that mature or may be terminated prior to the maturity of the associated debt.

(7.) RETIREMENT BENEFITS

MaineHousing has defined contribution and defined benefit pension plans that cover substantially all employees. Employees have the option to participate in either plan.

Defined Contribution Plan

The defined contribution plan consists of a deferred compensation plan created in accordance with Internal Revenue Code Section 457 and a separate plan created under the provisions of the Internal Revenue Code Section 401(a).

Benefit terms, including contribution requirements, for the defined contribution plan are establishment by management. For each participant in the plan, MaineHousing contributes 3.0% of annual salary to the 401(a) plan. Additionally, if a participant makes voluntary contributions to the 457 plan, MaineHousing matches the contributions up to 7.5% of annual salary. The employer match contribution is made to the 401(a) plan. Effective July 1, 2019, MaineHousing will contribute 2.9% of participant's annual salary to the 401(a) plan and match participant's voluntary contributions to the 457 plan up to 7.6% of annual salary.

For the period ended June 30, 2019, employee contributions totaled \$315 and MaineHousing recognized expense of \$223. Employees are immediately vested in their own contributions, MaineHousing contributions, and the earnings on those contributions.

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

Defined Benefit Plan

Plan Description: MaineHousing is a participating local district (PLD) member of the Maine Public Employees Retirement System's (MainePERS) PLD Consolidated Retirement Plan and employees may elect to participate in this multiple-employer cost sharing defined benefit plan. An advisory group established by Maine statute reviews the terms of the plan and periodically makes recommendations to the Legislature to amend them.

Benefits Provided: Retirement benefits are based on participants' average final compensation and service credit earned as of retirement. Vesting occurs upon the earning of five years of service credit. The normal retirement age is 60 or 65. The monthly benefit of members who retire before normal retirement age by virtue of having at least 25 years (20 years for participants in the plan prior to July 1, 2014) of service credit is reduced by a statutorily prescribed factor for each year of age that a participant is below her/his normal retirement age at retirement.

Post-retirement cost-of-living adjustments (COLA) become available to participants after 24 months of retirement. The post-retirement COLA is capped at 2.5% annually. The plan also provides disability and death benefits, which are established by contract under applicable statutory provisions.

Upon termination, accumulated employee contributions are refundable with interest, credited in accordance with statute. Withdrawal of accumulated contributions results in forfeiture of all benefits and rights. The annual rate of interest credited to participants' accounts is set by MainePERS Board of Trustees and is currently 2.4%.

Contributions: Retirement benefits are funded by contributions from participants and employers and by earnings from MainePERS investments. Disability and death benefits are funded by employer normal cost contributions and by investment earnings. Participant and employer normal cost contributions are each a percentage of applicable participant compensation. Participant contribution rates are defined by the MainePERS Board of Trustees. Employers' contributions are determined by actuarial valuations. As of June 30, 2019, the established MainePERS employer and employee contribution rates are 10.0% and 8.0%, respectively. MaineHousing pays on behalf of its employees 0.50% of the MainePERS employee contribution rate. Effective July 1, 2019, the employee contribution rate will increase to 8.10% for participants with a normal retirement age of 60 and decrease to 7.35% for participants with a normal retirement age of 65. Total employer contributions were \$241 for the period ended June 30, 2019.

Actuarial Methods and Assumptions

The total pension liability was determined using the following methods and assumptions, applied to all periods included in the measurement:

Cost Method – The Entry Age Normal cost method is used to determine costs. Under this cost method, the total employer contribution rate consists of two elements, the normal cost rate and the unfunded actuarial liability rate.

The individual entry age normal method is used to determine liabilities. Under the individual entry age normal method, a normal cost rate is calculated for each member. This rate is determined by taking the value, as of age at entry into the plan, of the member's projected future benefits, and dividing it by the value, also as of the member's entry age, of his/her expected future salary. The normal cost for each member is the product of his/her pay and his/her normal cost rate. The normal cost for the group is the sum of the normal costs for all members. Experience gains and losses, i.e., decreases or increases in liabilities and/or in assets when actual experience differs from the actuarial assumptions, affect the unfunded actuarial accrued liability.

Asset Valuation Method – The actuarial valuation employs a technique for determining the actuarial value of assets which reduces the impact of short-term volatility in the market value. The specific technique adopted in this valuation recognizes in a given year one-third of the investment return that is different from the actuarial assumption for investment return.

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

Amortization – The net pension liability is amortized on a level percentage of payroll using a method where a separate twenty-year closed period is established annually for the gains or losses for that year.

Actuarial Assumptions: The actuarial valuation as of June 30, 2018 and June 30, 2017 used the following actuarial assumptions:

Investment Rate of Return – 6.75% per annum, compounded annually at June 30, 2018; 6.875% at June 30, 2017.

Inflation Rate – 2.75%.

Annual Salary Increases, including Inflation – 2.75% to 9.00%.

Cost of Living Benefit Increases – 1.91% at June 30, 2018; 2.20% at June 30, 2017.

Mortality Rates – RP 2014 Total Dataset Healthy Annuitant Mortality Table for males and females.

The actuarial assumptions used in the June 30, 2018 and June 30, 2017 valuations were based on the results of an actuarial experience study for the period June 30, 2012 to June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major class of assets. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2018 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Public equities	30.0%	6.0%
US Government	7.5%	2.3%
Private equity	15.0%	7.6%
Real estate	10.0%	5.2%
Infrastructure	10.0%	5.3%
Natural Resources	5.0%	5.0%
Traditional credit	7.5%	3.0%
Alternative credit	5.0%	4.2%
Diversifiers	10.0%	5.9%

Discount Rate: The discount rate used to measure the collective total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that participant contributions will be made at the current contribution rate and that employer and non-employer entity contributions will be made at contractually required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Net Pension Liability: At June 30, 2019, MaineHousing has a liability of \$2,283 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. MaineHousing's proportion of the net pension liability was based on MaineHousing's employer contributions received by MainePERS during the measurement period July 1, 2017 through June 30, 2018, relative to the total employer contributions received from all participating entities. At June 30, 2019, MaineHousing's proportion is 0.834117%. The proportion was 0.906494% at June 30, 2018.

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

Sensitivity of MaineHousing's proportionate share of the net pension liability to changes in the discount rate:
The following represents MaineHousing's proportionate share of the net pension liability calculated using the discount rate of 6.75%, as well as what MaineHousing's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate.

1% Decrease	Current Discount Rate	1% Increase
<u>@ 5.75%</u>	<u>@ 6.75%</u>	<u>@ 7.75%</u>
\$5,380	\$2,283	(\$612)

Changes in net pension liability are recognized in pension expense for the period ended June 30, 2019 with the following exceptions:

Differences between expected and actual experience – The difference between expected and actual experience with regard to economic or demographic factors was recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members. The first year is recognized as pension expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources. For 2018 and 2017 valuations, respectively, this was three years and four years.

Differences Between Projected and Actual Investment Earnings – Differences between projected and actual investment earnings were recognized in pension expense using a straight-line amortization method over a closed five-year period. The first year is recognized as pension expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources.

Changes in Assumptions – Differences due to changes in assumptions about future economic or demographic factors or other inputs were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members. The actuarial assumptions for the June 30, 2018 valuation were based on the results of an actuarial experience study for the period of June 30, 2012 through June 30, 2015. The first year is recognized as pension expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources.

Changes in Proportion and Differences Between Employer Contributions and Proportionate Share of Contributions – Differences resulting from a change in proportionate share of contributions and differences between total employer contributions and the employer's proportionate share of contributions were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members. The first year is recognized as pension expense and the remaining years are shown either as deferred outflows of resources or deferred inflows of resources. Differences between total employer contributions and the employer's proportionate share of contributions may arise when an employer has a contribution requirement for an employer specific liability.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:
For the period ended June 30, 2019, MaineHousing recognized pension expense of \$241 and reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$7	\$25
Employer contributions subsequent to the measurement date	227	0
Net difference between projected and actual earnings on pension plan investments	0	551
Changes in proportion and differences between employer contributions and proportionate share of contributions	18	440
Changes of assumptions	364	0
Total	\$616	\$1,016

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

Amounts reported as deferred outflows of resources related to pensions resulting from MaineHousing's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability for the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense through December 31, 2022 as follows:

Year ended December 31:	Pension Expense Amount
2019	(\$23)
2020	(\$87)
2021	(\$375)
2022	(\$142)

Payables to the Pension Plan: At June 30, 2019, MaineHousing's total payable to MainePERS for unremitted contributions is \$16.

Pension plan fiduciary net position: Detailed information about the plan's fiduciary net position is available in the separately issued MainePERS' Comprehensive Annual Financial Report at www.mainebers.org.

(8.) AVAILABLE BONDS PROCEEDS

MORTGAGE PURCHASE FUND

2018 Series D-2 (M/F)	2,721
2018 Series E (M/F)	19,101
2019 Series A (S/F)	34,427
2019 Series B (S/F)	37,556
	<u>\$96,905</u>

MAINE ENERGY, HOUSING AND ECONOMIC RECOVERY FUND

The following bond proceeds are invested in accordance with the Maine Energy, Housing and Recovery General Indenture and are available for program activities:

2010 Series 1	\$577
2010 Series 2	930
	<u>\$1,507</u>

(9.) COMMITMENTS

MORTGAGE COMMITMENTS

Mortgage commitments are agreements to loan money provided there is no violation of any term or condition established in the agreement. Generally, once exercised, the loans made under the terms of such commitments are secured by a lien on the related property and other collateral as MaineHousing deems necessary. At June 30, 2019, MaineHousing had outstanding commitments in several funds to originate multi-family mortgage loans of approximately \$85,915. MaineHousing, under its single-family program, enters into purchase agreements with lenders to purchase mortgage loans. At June 30, 2019, single-family loans being processed by lenders for MaineHousing totaled approximately \$53,758.

Maine State Housing Authority
Notes to Financial Statements – June 30, 2019
(IN THOUSANDS OF DOLLARS)

LEASE COMMITMENT

MaineHousing has committed to a lease agreement for approximately 39,000 square feet of office space that expires on June 30, 2020. Annual rent under this lease agreement increases at a rate of 3% per year and expense amounted to \$384 for the period ended June 30, 2019. MaineHousing has acquired property in Augusta, Maine for development and to relocate its office at or near the expiration of the current lease. The total development for the new office building is estimated at approximately \$15,500.

(10.) RESERVE FUNDS

MORTGAGE PURCHASE FUND – HOUSING RESERVE FUND

On or before December 1 of each year, MaineHousing is required to value the Housing Reserve Fund and verify to the Governor of the State of Maine that the sum of money in the fund equals or exceeds the Housing Reserve Fund Minimum Requirement. The Housing Reserve Fund Minimum Requirement equals the amount of principal and interest maturing and coming due in the next succeeding calendar year on bonds outstanding. The Housing Reserve Fund Minimum Requirement as of June 30, 2019 was \$110,027. When issuing bonds MaineHousing must also meet the Housing Reserve Fund Maximum Requirement. The Housing Reserve Fund Maximum Requirement equals the maximum debt service required in any subsequent calendar year. The Housing Reserve Fund Maximum Requirement as of June 30, 2019 was \$118,879.

In calculating the Housing Reserve Minimum and the Housing Reserve Maximum requirements, MaineHousing assumes a 12% rate for variable rate bonds, which is the maximum interest rate under the terms of the bonds. Swap payments and receipts are not included in the calculation. At June 30, 2019, valuation of the investments in the Housing Reserve Fund, computed at the lower of par or cost in accordance with the General Mortgage Purchase Program Bond Resolution was \$151,563.

MAINE ENERGY, HOUSING & ECONOMIC RECOVERY FUND – CAPITAL RESERVE FUND

MaineHousing is required to maintain a Capital Reserve Fund in an amount equal to the Capital Reserve Fund Requirement established under the General Indenture. The Capital Reserve Fund Requirement equals the greatest amount of principal and interest maturing and becoming due in the current or any succeeding bond year. The Capital Reserve Requirement as of June 30, 2019 was \$4,320. This requirement may be satisfied by the deposit of money or by the deposit of a Credit Facility or an insurance policy for the benefit of the bondholders.

Between July 1 and July 15 of each year, MaineHousing must certify to the Treasurer of the State the amount necessary and sufficient to meet MaineHousing's debt service obligation, including amounts necessary to replenish the Capital Reserve Fund to the Capital Reserve Requirement. At June 30, 2019, valuation of the Capital Reserve Fund insurance policy in the Capital Reserve Fund was \$4,320.

(11.) EXCESS ARBITRAGE TO BE REBATED

Tax-exempt bonds issued by MaineHousing are subject to Internal Revenue Service regulations that limit the amount of income that can be earned with non-mortgage investments to an amount not greater than the amount that would have been earned had the funds been invested at the yield on the bonds. Excess earnings must be rebated every five years. At June 30, 2019, there are no arbitrage liabilities to be rebated.

Prior rebate payments made by MaineHousing that are eligible for refund from the United States Treasury, based on estimated arbitrage rebate calculations, are recorded as a receivable in other assets. MaineHousing has recorded receivables in the amount of \$184 in the Mortgage Purchase Fund at June 30, 2019.

(12.) FUND TRANSFERS AND INTERFUND BALANCES

MaineHousing records transfers between funds for various purposes including program subsidies, fees and capital asset transfers. Transfers for the period ended June 30, 2019 consisted of the following:

	General Administrative Fund	Low Income Home Energy Assistance Program	Other Federal And State Programs
Capital Assets	\$8	(\$7)	(\$1)
	\$8	(\$7)	(\$1)

MaineHousing reports interfund balances among its funds. These balances generally consist of amounts for various revenues or expenses due to a fund, but received or paid to another and funds for loan closings. These amounts are generally paid or received within the subsequent year.

Interfund accounts receivable (payable) balances at June 30, 2019 consisted of the following:

	Mortgage Purchase Fund	Bondholder Reserve Fund	General Administrative Fund	HOME Fund	Section 8 Housing Programs	Low Income Home Energy Assistance Program	Other Federal And State Programs
Receivable due from:							
Mortgage Purchase Fund	\$0	\$0	\$3,223	\$0	\$0	\$0	\$0
General Administrative Fund	0	0	0	819	165	0	876
Other Federal And State Programs	353	0	93	0	11	0	0
Collectively, all other funds	0	0	12	0	0	0	0
	353	0	3,328	819	176	0	876
Payables	(3,223)	(12)	(1,860)	(11)	(353)	(93)	0
	(\$2,870)	(\$12)	\$1,468	\$808	(\$177)	(\$93)	\$876

The interfund accounts receivable of the General Administrative Fund consist primarily of operating expenses owed from the Mortgage Purchase Fund, Section 8 Housing Programs, Low Income Home Energy Assistance Program and Other Federal and State Programs.

(13.) REDEMPTION OF BONDS

For the period ended June 30, 2019, MaineHousing redeemed prior to maturity \$47,015 of its Mortgage Purchase Fund bonds from recoveries of principal and surplus revenues. Gains of \$135 were attributed to the recognition of related bond premium. The following is a summary of bonds redeemed:

	Interest Rate	Original Maturity	Amount	Redemption Price
2011 Series C-2 Term Bonds	4.88%	11/15/2041	\$2,000	100%
2011 Series D Serial Bonds	2.75%	11/15/2019	1,535	100%
2011 Series D Serial Bonds	3.00%	11/15/2020	1,155	100%
2011 Series D Serial Bonds	3.30%	11/15/2022	1,895	100%

(14.) CONTINGENCIES

MaineHousing is subject to various legal proceedings and claims that arise in the normal course of its business. MaineHousing also receives funding from federal government agencies. These funds are to be used for designated purposes only and are subject to financial and compliance audits and the resolution of identified questioned costs. The amount, if any, of expenditures which may be disallowed by the granting agency cannot be determined at this time. In the opinion of management, the ultimate resolution of these actions will not materially affect the accompanying financial statements.

(15.) SUBSEQUENT EVENTS

On August 15, 2019 MaineHousing issued, at par, \$43,330 of bonds in the General Mortgage Purchase Bond Resolution as follows:

	<u>Interest Rate</u>	<u>Maturity</u>	<u>Amount</u>	<u>Issued Price</u>
2019 Series C Serial Bonds	1.25%-2.45%	2020-2031	\$8,415	100%
