

VI-SPDAT HMIS Workflow

The VI-SPDAT will now be recorded in HMIS. The overall workflow has not changed. A benefit of recording the VI-SPDAT in HMIS is that the score will be calculated for the person entering it, lowering data quality errors. A reminder the VI-SPDATs must be completed within 30 days of program entry.

When to use each type of VI-SPDAT:

There are three types of VI-SPDAT assessments

VI-FSPDAT v2.0 is used for households

TAY-VI-SPDAT v1.0 is used for youth programs

VI-SPDAT v2.0 is used for individuals
