Services Most Frequently Needed but Not Accessed

- 23 (7%) Rent Payment Assistance
- 13 (4%) Food Stamps
- 12 (4%) Case Management
About the Survey: The Annual Point in Time Survey provides a snapshot of people experiencing homelessness on a particular night of the year. The survey is required by the U.S. Department of Housing and Urban Development for Continuums of Care to receive McKinney-Vento funds for Transitional and Permanent Supportive Housing. On January 26, 2011, service providers, homeless advocates and municipal officials from the three Continuums in Maine (The City of Portland, Greater Penobscot County and Maine Balance of State) conducted a statewide census of people staying in Emergency Shelters, Transitional Housing for people who are homeless, and those living on the streets or in places considered unfit for habitation (Unsheltered). The person’s demographic information, homeless situation and service needs were recorded, whenever possible, in addition to counting people who were homeless. This handout includes information and survey responses from people who were staying in Emergency Shelters or were Unsheltered on January 26, 2011. Visit www.mainehousing.org for additional Point in Time handouts with Continuum of Care data.

Gender and Age

- 61 (18%) people identified through the survey were minorities. Minorities are 4% of Maine’s population.

Racial Make-Up

- 76% White
- 16% Black or African American
- 3% American Indian or Alaska Native
