*Unsheltered includes people who were staying in cars, tents, abandoned buildings, outside or in other places not suitable for human habitation.

People Identified as Homeless:

Survey Results:

Length of Time Homeless

- Less than 7 Days: 37.3%
- 7 Days to 6 Months: 15.0%
- 6 Months to a Year: 7.9%
- 1 to 2 Years: 7.9%
- 2 to 5 Years: 2.9%
- 5+ Years: 2.9%
- More than 4: 2.9%

Times Homeless** in the Past Three Years

- Less than 1: 29.1%
- 1: 15.0%
- 2: 7.9%
- 3: 7.9%
- 4: 2.9%
- More than 4: 2.9%

** Under the HEARTH Act, the new definition of a "time homeless" (or in HUD terms an "occurrence" of homelessness) is that the occurrence must be at least 15 consecutive days long. Clients who were not homeless for at least one "occurrence" of 15 continuous days are still considered to have experienced homelessness, but are now counted in the "Less than 1" time homeless category above.
About the Survey: The Annual Point in Time Survey provides a snapshot of people experiencing homelessness on a particular night of the year. The survey is required by the U.S. Department of Housing and Urban Development for Continuums of Care to receive McKinney-Vento funds for Transitional and Permanent Supportive Housing.

On January 25, 2012, service providers, homeless advocates and municipal officials from the Continuums in Maine conducted a statewide census of people staying in Emergency Shelters and Transitional Housing for people who are homeless, and those living on the streets or in places considered unfit for habitation (unsheltered). Demographic information, homeless situations and service needs were recorded, whenever possible.

Because Maine's three Continuums of Care (City of Portland, Greater Penobscot County, and Maine Balance of State) recently merged into two (City of Portland, and Maine Continuum of Care), this year's results are reported using the new definitions. For data from prior years, go to www.mainehousing.org/data-reports/Housing-Reports.

Gender and Age

69 (18%) people identified through the survey were minorities. Minorities are 4% of Maine’s population.

Racial Make-Up

69 (18%) people identified through the survey were minorities. Minorities are 4% of Maine’s population.

Last Residence

75.3% from Maine
1.6% from Other States
23.1% No Response

Adult Education Levels

100 (30%) Less than High School
161 (48%) High School Education
67 (20%) More than High School
5 (2%) No Response

Adult Employment Status

16 (5%) Employed
311 (93%) Unemployed
6 (2%) No Response

Additional Information on Adults

24.6% Severe and Persistent Mental Illness
22.8% Chronic Substance Abuse
39.3% Chronic Disability
0.0% HIV/AIDS
9.9% Domestic Violence Survivor
9.0% Veterans
21.3% Chronic Homeless***

71 (21.3%) adult survey respondents met the definition of chronically homeless: an unaccompanied homeless adult individual with a disabling condition who has either been continuously homeless for a year or more or has had at least four episodes of homelessness in the past three years. Please go to http://www.ich.gov/ for more information.

*** The chronic count changed primarily as a result of HUD’s proposed re-definition of a "time homeless" or "occurrence" of homelessness, as described above.
