4. **Funding Formula Allocation**

From time to time MaineHousing will allocate a certain amount of funds to be distributed, subject to availability, to Emergency Shelters and Emergency Housing Providers (the “Funding Formula Allocation”) pursuant to the following funding methodology:

- A. **Shelter Operations.** An amount equal to 40% of the Funding Formula Allocation will be disbursed among eligible agencies, such that each Emergency Shelter will receive a percentage equal to the Emergency Shelter’s Bed Capacity divided by a number equal to the total Bed Capacity available statewide for the calendar year. Agencies will receive scheduled payments on a quarterly basis.
- B. **Rapid Re-housing, Long-term Stayer and Stabilization Share.** An amount equal to 40% of the Funding Formula Allocation will be disbursed among eligible agencies, such that each agency providing staffing for Rapid Re-housing, Housing First and Housing Stabilization services operated by the agency will be eligible to receive a percentage equal to the agency’s number of Clients Assessed and Stabilized, divided by the total number of Clients Assessed and Stabilized statewide in the previous quarter. Agencies are reimbursed for costs on a quarterly basis.

In order for an agency to achieve the full amount of the Rapid Re-housing, Long-term Stayer and Stabilization Share for which it is eligible, it will need to meet certain performance measures to be published at the time of allocation. The measures will be based on successful housing outcomes

including housing prioritization assessment, housing stability plans and transfers to permanent housing.

Examples of Potential Performance:

- ✓ % of agency households screened for prioritization of housing options.
- ✓ % of agency household departures placed in permanent housing with a lease.
- ✓ % of agency household departures with documented income through benefits, employment, education or training.

C. **Incentives and Performance Share.** An amount equal to 20% of the Funding Formula Allocation will be made available to eligible agencies that provide successful housing outcomes based on performance indicator data in HMIS (or elsewhere for providers of services to victims of domestic violence). Providers will receive a percentage of funding for each outcome performance measure that they meet. The amount of funding available for each performance measure will be the same. The percentage of funding a provider receives for each performance measure met will be equal to the number of clients served by the provider divided by the total number of clients served by all of the providers that meet the respective performance measure benchmark in the previous quarter, or in the previous calendar year for the recidivism benchmark. Agencies will receive a performance based payment on a semi-annual basis.

- Payments are based on performance of successful housing exits including housing retention, income and supports, and recidivism.

Examples of Performance Measures:

- ✓ % of agency household departures to permanent housing that retains housing for at least six months.
- ✓ % of agency household departures whose income increased between entry and departure through benefits, employment, education or training.
- ✓ % of decrease in average length of stay.

Grantees that receive allocations from federal funds, including Emergency Solutions Grant or HOME Investment Partnership Act funds, may be required to provide match from local or private funds.

BASIS STATEMENT: This Rule replaces in its entirety the current *Homeless Programs Rule*. MaineHousing uses funds from certain federal and state resources to give grants to agencies for a variety of activities to assist people who are experiencing homelessness or the risk of being homeless. The rule governs MaineHousing's allocation of resources for such programs, program design, the publication and distribution of program guides, basic criteria for determining eligible recipients, and potential selection criteria. This replacement *Homeless Solutions Rule* places new emphasis on outcomes in alignment with current federal initiatives to end homelessness.

PUBLIC COMMENT:

Process:

Notice of Agency Rule-making Proposal (MAPA-3) was submitted to the Secretary of State for publication in the Wednesday, July 15, 2015 edition of the appropriate newspapers. Additionally, MaineHousing sent the proposed rule to Interested Parties on Wednesday, July 15, 2015, and published the proposed rule on its website on Wednesday, July 15, 2015.

MaineHousing held a public hearing on Tuesday, August 4, 2015 to receive testimony on its proposal to repeal and replace the Rule. The comment period was held through close of business on Friday, August 14, 2015. MaineHousing received comments from Preble Street, The Bangor Area Homeless Shelter, the Milestone Foundation, City of Portland, Statewide Homeless Council, Penobscot Health & Community Center at the public hearing and written comments from Tedford Shelter and the Milestone Foundation.

Summary of Comments and Responses to Comments

Performance Measures and HMIS:

Jon Bradley of Preble Street said that he supports the general direction that MaineHousing is moving in but is concerned that the funding formula is shifting too much from operations to staff and performance outcomes. He said that the additional funding from the Legislature was intended for operations. He said that the performance measures hold shelters responsible for outcomes that depend on factors outside of their control such as vacancy rates and availability of VASH vouchers. Mr. Bradley expressed concern that the performance measures may not take into consideration the challenges of the particular population that a shelter is serving.

Bob Fowler of the Milestone Foundation also expressed concern that the performance measures may not take into consideration the challenges of the particular population that a shelter is serving. Mr. Fowler suggested that outcomes for any particular shelter be customized to account for the unique circumstances of that program. Mr. Fowler also suggested that the move from general operational support to support that is based on outcomes be phased in over time.

Dennis Marble of The Bangor Area Homeless Shelter stated that he does not agree with HUD's direction. He said that working with homeless persons is a delicate dance and asking a homeless person to sign a release regarding their personal information to be input into HMIS is not a good fit. He is concerned that there is too much emphasis on compliance. He thanked MaineHousing and

Peter Merrill in particular for their support in obtaining additional funds for homeless shelters from the Legislature.

Dawn Stiles, City of Portland spoke in support of the new rule and the use of performance measures in particular. She said that she has witnessed the remarkable transformation that permanent housing can bring to persons who thought they could never be housed.

Wes Phinney, Chair of the Statewide Homeless Council spoke in support of the changes to the rule and applauded the efforts of MaineHousing in obtaining additional resources for homeless shelters through legislation.

Joshua D’Allesio, Penobscot Health & Community Center spoke in support of the rule. He said that it is a good tool for a single point of reference, prioritization, and getting all the shelters working on the same page. He also stated that he has done intake for about 1,300 homeless persons in the last 3 years and only two of them objected to signing an HMIS release.

MaineHousing Response:

Over the past several years MaineHousing has created new initiatives which comport with HUD’s focus on solutions and outcomes for homeless persons. HUD’s focus is on (1) maintaining an adequate geographic network of emergency housing, (2) emphasizing rapid rehousing with support for stability and success in maintaining housing, and (3) implementing system performance measures to ultimately end and prevent homelessness. MaineHousing supports this approach. MaineHousing understands that shelters across the State face different challenges based upon the populations they serve and their location. MaineHousing intends to establish realistic performance measures that are linked to a shelter’s population and location. The new allocation and awards for the Shelter Incentive funds for the first half of 2015 showed that every shelter was successful in attaining at least one of the performance benchmarks and seven of our shelters and Home to Stay grantees achieved all three. This is an indication that performance measures and outcomes can be achieved, regardless of the type of shelter or subpopulation served. MaineHousing is currently analyzing data to determine realistic performance benchmarks for our 2016 programs. MaineHousing consistently stated to the Legislature and others that any additional funds for homeless shelters from the Legislature would be distributed under the funding formula in the rule which we were in the process of revising.

Suggested Edits:

Craig Phillips of Tedford Shelter submitted suggested language changes to the rule in writing. Mr. Phillips suggested that the rule: (1) require applicants to be regular and active participants in the Regional Homeless Council (2.D.); (2) state that performance measures will be in the ESG contracts (4A.2. & 4 A.3.); (3) include the language “as defined in the program guide and contract” after “Agencies are reimbursed for costs.” (4A.2); (4) require MaineHousing to initiate the application process by November 15 and execute contracts by January 31 (section 6.); (5) require MaineHousing to provide reasonable notice re changes to HMIS requirements and reasonable time to train staff and implement changes to HUD Data Standards (7.B.); and (6) require MaineHousing to provide public access to monitoring and compliance reports (9.D.).

MaineHousing Response:

MaineHousing does not believe any of the requested changes are needed. The rule already requires applicants to be regular and active participants in a Continuum of Care, which satisfies HUD's consultation and participation requirements. The ESG contracts will incorporate the program guide, which in effect means that the performance measures will be in the contracts without need to modify the proposed language. MaineHousing will address the application process and deadlines in the program guide rather than in the rule. MaineHousing must respond as HUD directs to comply with HUD requirements for the notification and implementation of the HMIS Data Standards. All monitoring and compliance reports are accessible for the public upon request.
