The Homeownership Affordability Index is the ratio of Home Price Affordable at Median Income to Median Home Price. An index of less than 1 means the area is generally unaffordable - i.e., a household earning area median income could not cover the payment on a median priced home (30 year mortgage, taxes and insurance) using no more than 28% of gross income.

Households Unable to Afford Median Home

<u>Location</u>	Households Unable to Afford <u>Median Home</u>		Total <u>Households</u>	Median <u>Home Price</u> ¹	Income Needed to Afford <u>Median Home</u>	
	<u>Percent</u>	<u>Number</u>			<u>Annual</u>	<u>Hourly</u>

The Rental Affordability Index is the ratio of 2-Bedroom Rent Affordable at Median Renter Income to Average 2-Bedroom Rent. An index of less than 1 means the area is generally unaffordable – i.e., a renter household earning area median renter income could not cover the cost of an average 2-bedroom apartment (including utilities) using no more than 30% of gross income.

Renter Households Unable to Afford Average 2 Bedroom Rent
