CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

This Maine Annual Performance Report describes the implementation of Maine's Consolidated Plan during 2019. The Consolidated Plan covers the use of HOME Investment Partnership Program (HOME), Housing Trust Fund (HTF), Emergency Solutions Grant (ESG), Community Development Block Grant (CDBG), and leveraged funds for the period 1/1/2019 to 12/31/2019. Objectives and expected outcomes for CDBG, HOME, HTF and ESG have been identified through the Consolidated Plan process. The Annual Action Plan addresses how objectives are to be met each year.

During 2019 the Maine State Housing Authority (MaineHousing) administered the HOME, HTF and ESG funds. The Maine State Department of Economic and Community Development (DECD) administered the CDBG funds.

It is important to note that the state provides affordable housing and community development through a variety of assistance programs, many of which are funded through agency resources or state appropriations. In 2019 MaineHousing assisted more than 1,100 first time home buyers, 8,800 rental households, 880 homeowners (not including over 52,000 helped with energy assistance) and more than 5,900 homeless individuals. MaineHousing used funds to complete 18 multifamily projects, for a total of 781 units (316 for families and 461 for seniors). In 2019 13 projects are under construction (331 family units and 215 units for seniors).

Significant progress has been made to address Consolidated Plan priorities and objectives. Use of tenant-based rental assistance (122% of 2019 goal), support emergency shelter operations & service (111% of 2019 goal), improve the quality of existing housing (143% of rental unit goal for 2019), improve public infrastructure (209% of 2019 goal) and increase the quality and supply of rental housing (176% of rental unit rehabilitated goal) all exceeded 2019 goals.

This report covers the fifth year in the five year (2015-2019) Consolidated Plan.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

One example of MaineHousing’s success in meeting goals is the increased use of Rapid Re-Housing. This goal is being met with the help of Emergency Shelter and Housing Assistance Program navigators, funded through ESG. The navigators are a relocation and stabilization resource and have access to rapid re-housing rental subsidies through the Stability Through Engagement Program (STEP) and Home to Stay (HTS) Housing Choice Vouchers (HCV). STEP (funded with HOME) and HTS HCV are available to households experiencing homelessness. STEP can provide rental assistance for two years and HTS is an ongoing subsidy provided the household remains eligible within the program guidelines. Navigators follow household members after housing placement to ensure housing stability is maintained and that appropriate referrals are in place. The use of navigators, in coordination with the multiple system level changes in Maine, has resulted in continued progress toward the rapid re-housing of homeless families and individuals in 2019. There are no jurisdictional requirements or limits on STEP or HTS vouchers and they can be utilized throughout the state.

The State of Maine CDBG program identified the highest priorities as Housing, Economic Development, and Public Infrastructure. For the program year 2019, over 90% of funding went to those three areas.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

The CDBG, HOME and HTF data in the table above is populated from the HUD IDIS system; it does not include information on all activities covered by this report. This racial and ethnic data is only from HOME and HTF activities completed in 2019; many other individuals and families were assisted with HOME in 2019. Additionally, persons identifying as multi-racial are not included in the data above.

According to the IDIS Report **HOME Summary of Accomplishments for FY 2019**, 10% of HOME assisted households were of a race other than White and 4% of the HOME assisted households were Hispanic.

Racial and ethnic data available for ESG households is reported by individual persons served through the ESG program. This information indicates that the majority of families assisted have self-reported as “White,” which comprises 76% of the total shelter population. This total does not include individuals with multiple races and individuals assisted by ESG who did not provide race and ethnicity information(). U.S. Census data projects that Maine’s population was 94% White in 2019, indicating that shelter guests reporting other races are overrepresented in homeless shelters funded by ESG.

The data in IDIS does not accurately reflect the racial and ethnic diversity of families assisted with the State of Maine CDBG funding.

Table 3 - Resources Made Available

Narrative

Funding that HUD provided to Maine for 2019 CDBG, HOME, HTF and ESG programs is shown above. Note that amounts may include funds from previous allocations.

For FY 2019, MaineHousing allocated a total of \$6,151,019.95 for the Operations, Stabilization, and Performance Shares of ESHAP. These funds assisted 36 homeless shelter programs which served 6,921 individuals and families who were homeless.

The combination of ESG, Maine Real Estate Transfer Tax fees, and State General funds were used to support homeless shelter providers with shelter operating expenses, relocation, and stabilization services.

The Operations Share was funded with \$625,509.98 of ESG funds and \$1,839,426.00 of State General funds.

Stabilization Share was funded with \$625,509.97 of ESG, \$660,574.00 of State General funds and \$1,178,852.00 of State Home funds.

Performance Share was funded with \$1,222,148 of State Home funds.

Table 4 – Identify the geographic distribution and location of investments

Narrative

The State of Maine has not chosen to target particular geographical areas for special assistance.

In 2019 MaineHousing completed HOME Rental Housing in four Maine counties. ESG funds assisted shelters in eleven Maine counties.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

ESG requires a one-to-one matching of funds. For FY 2019, MaineHousing utilized approximately \$4.9 million of State of Maine funds for match. Two of the HOME assisted multifamily developments involved new construction of units on publicly owned land.

Number of households supported through Acquisition of Existing Units	0	0
Total	255	626

Table 12 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

The one-year goal for HOME-funded programs is established in the 2019 Annual Action plan. HOME data in the table above is populated from the HUD IDIS system; it may not include information on all activities covered by this report. The data above is only from HOME activities completed in 2019; many other individuals and families were assisted with HOME in 2019.

In 2019 MaineHousing exceeded the goal of providing rental assistance and for rehabing existing units and was very close to the goal for production of new units (98% of the 2019 goal). It is difficult to predict the exact breakdown of new units vs rehabbed units in multifamily housing production in a given year due to the application process. Note that in 2019 HOME funds have been allocated to three projects that have been granted notice to proceed (these projects will produce a total of 92 new units and 100 rehab units). Data from these activities will be reported when they are completed. Additionally in 2019 HTF funds have been allocated to two projects, these projects will produce a total of 15 new affordable units.

In 2019 MaineHousing exceeded the goal of providing 140 affordable housing units for the homeless.

Discuss how these outcomes will impact future annual action plans.

MaineHousing will consider these outcomes when establishing the goals in the 2021 Action Plan.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual	HTF Actual
Extremely Low-income	64	150	17
Low-income	23	19	
Moderate-income	172	3	
Total	259	172	

Table 13 – Number of Households Served

Narrative Information

According to the IDIS Report **HOME Summary of Accomplishments for FY 2019**, 97% of beneficiaries of MaineHousing HOME-assisted programs in 2019 had incomes at or below 60% of HUD median income, with the greatest number at or below 30% of area median income.

Maine is assisting extremely low-income, low-income and moderate income persons and progress is being made towards the goals identified in both the 2019 Annual Action Plan and the Consolidated Plan. Use of tenant-based rental assistance (122% of 2019 goal) exceeded the goal.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The Maine CoC's outreach plan is supported in coordination with the Department of Health and Human Services (DHHS) Projects for Assistance in Transition from Homelessness (PATH) grantees. PATH Grantees work closely with ESG funded shelters, the CoC, and the ESG Grantee. The goal of these outreach efforts is to engage individuals who are unsheltered, assess their immediate needs and health care concerns, determine their eligibility for MaineCare and other services, and transition them to a community provider for ongoing assistance.

Maine has two Supportive Services for Veteran Families (SSVF) programs that conduct outreach across the entire state of Maine and work directly with veterans and their families who are either homeless or at risk of homelessness.

There have been new outreach initiatives funded at the local level in Bangor and Waldo County in 2019. Outreach workers engage with unsheltered individuals to build relationships and provide supports with the goal of housing and stabilization.

The Maine CoC continues to develop and implement its Coordinated Entry System and in 2019, hired a dedicated position for this process.

Addressing the emergency shelter and transitional housing needs of homeless persons

Maine continues to address both emergency shelter and transitional housing needs of persons who are homeless through the direction and advocacy of the Maine Continuum of Care and the Maine Statewide Homeless Council. Maine has implemented a Coordinated Entry System (CES) which includes all the CoC and ESG funded programs in the state. The Maine CoC has developed a subcommittee which is tasked with revising the CES system with the goal of addressing the emergency shelter and housing needs of homeless persons in a collaborative way, including coordinated entry processes specifically focusing on the needs of Youth, Veterans, and Victims of Domestic Violence. In addition to prevention and diversion efforts, Maine's Coordinated Entry System is designed to quickly move individuals and families from Emergency Shelter (ES) and Transitional Housing (TH) into the most appropriate form of permanent housing available, thus making ES and TH space available for those needing an immediate, short term solution.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private

agencies that address housing, health, social services, employment, education, or youth needs

In addition to the prevention and diversion elements of Maine’s Coordinated Entry System, there are several ongoing initiatives to address discharge planning from institutions and systems of care. In 2019 the Statewide Homeless Council worked closely with the Maine Department of Corrections to develop a **Maine Criminal Justice System Blueprint for Ending and Preventing Homelessness** that seeks to prevent inmates being released to homelessness. A similar **Blueprint for Ending Homelessness** that was developed with DHHS has been in place for some time to address discharge planning from state run mental health facilities. Maine was awarded a Youth Homelessness Demonstration Program grant in 2019, which will, among other things, establish programs and protocols for youth leaving foster care and other youth facilities.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

ESHAP Shelters are provided a financial incentive to focus efforts on helping guests achieve permanent housing and to ensure that they remain in permanent housing. The table below illustrates the minimum benchmarks shelters must meet to receive this funding. In addition, many ESG funded shelters participate in statewide conferencing initiatives to house chronically homeless persons and long term stayers.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

MaineHousing is not a public housing authority. In 2019, MaineHousing worked collaboratively with the PHAs in Maine as follows:

- Utilized the statewide centralized Housing Choice Voucher waitlist as mandated by Maine law.
- Invited local PHA inspections staff to educational forums about technical themes and personal safety.
- Participated in ‘occupancy meetings’ which included staff representatives of PHAs statewide. These meetings include discussions of best practices, new regulations and training.
- MaineHousing Director attends quarterly PHA director meetings.
- MaineHousing Family Self-Sufficiency (FSS) staff continue to lead statewide efforts to improve processes and evaluation of the program amongst those PHAs who administer it, along with bringing together all other PHA FSS staff to analyze and respond to new HUD program regulations. Along with Portland HA, we are members of the National FSS Network through a partnership with Compass Working Capital.
- Collaborated with local PHA’s to apply and administer 5 year Mainstream vouchers.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

MaineHousing does not own or manage public housing and does not have access to public housing residents to encourage them to participate in management or homeownership.

MaineHousing's affordable mortgage financing and down payment assistance are available to first-time homebuyers that meet income requirements.

Actions taken to provide assistance to troubled PHAs

There are no troubled PHAs in Maine.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

The Annual Action Plan states that MaineHousing and the Department of Economic and Community Development will continue to encourage qualified applicants to apply for CDBG, HOME, HTF and ESG funds. Additionally, the agencies monitor public policy with particular interest in issues related to affordable housing and community development.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

MaineHousing and the Department of Economic and Community Development encourage qualified applicants to apply for CDBG, HOME, HTF and ESG funds.

According to the IDIS Report **HOME Summary of Accomplishments for FY 2019**, 97% of beneficiaries of MaineHousing HOME-assisted programs in 2019 had incomes at or below 60% of HUD median income, with the greatest number at or below 30% of area median income.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

MaineHousing receives funding from state and federal sources to offer lead safe programs for single-family households and owners of rental properties in Maine. Priority for program funds is granted to remediation and abatement projects of households with a child that has elevated blood lead levels.

A three-year Lead Hazard Reduction Demonstration Grant (LHRD) was awarded to MaineHousing in October 2016. In 2019, MaineHousing's LHRD Program funded lead abatement projects in 116 units with an average cost of \$10,612.75 per unit. In addition to the lead abatement work, a variety of health and safety issues were addressed in the 18 units using Healthy Homes funding received in conjunction with the LHRD Grant with an average of \$14,351 per unit. In November 2019, MaineHousing was awarded \$3.8 million for another three-year federal LEAD and Healthy Homes Grant to continue this work.

In 2018, MaineHousing was also awarded \$4,000,000 from the State of Maine for additional lead abatement and remediation measures. These funds will be used in a similar fashion as those from the LHRD Program, with the exception that an owner match is required (10% of project costs if the residence is not under abatement orders from CDC and 25% if the residence is under an abatement order). The state Lead Program also has an income eligibility limit of 100% of AMI. In 2018 MaineHousing addressed the statewide lead abatement contractor capacity by using LHRD Grant funds to pay for nearly 44 contractors and landlords to participate in Lead Supervisor training.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The strategy and goals of the Five-Year Consolidated Plan and the Annual Action Plan directly address the

issues of individuals who are living in poverty.

In Maine, there is a statewide network of Community Action Agencies (CAAs) with a common purpose of providing services to low income people across Maine. The goal of these agencies is to empower low-income people to lift themselves and their families out of poverty.

In 2019, MaineHousing worked with the Community Action Agencies to weatherize 415 homes, improve the heating systems for 1,615 households, and to provide Home Energy Assistance to over 31,000 households.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

The State of Maine has an efficient institutional structure through which housing and community development programs are delivered. DECD is the administrator of CDBG funds and MaineHousing is the administrator of HOME, HTF and ESG funding. Both MaineHousing and DECD participate in a number of standing meetings with representatives from state and local government, not-for-profit, and private providers of housing, homelessness, and economic development services.

In 2019 MaineHousing worked with the Continuum of Care to assess system gaps and needs and implement programs to serve persons who are experiencing homelessness. Additionally, Maine's CoC continues to coordinate and develop its Coordinated Entry efforts.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

MaineHousing continued to work closely with the Maine Community Action Agencies (CAAs) to deliver services for HEAP, Weatherization, Home Repair and Accessibility, Mobile Home Replacement, Lead Abatement, Arsenic Abatement. Efforts to coordinate these Programs and to deliver services to Maine residents are executed through regular meetings with the CAAs and other partners, including the Maine Center for Disease Control and Prevention, Maine Equal Justice Partners and the Public Advocate's Office. Coordination is also conducted through regular email communications and web-based trainings.

MaineHousing has set aside 33 vouchers for leveraged funding under HUD's 811 Program giving priority for People with Disabilities receiving Medicaid waiver services under Sections 18, 19, 20, 21 and 29. MaineHousing pledged these vouchers in a NOFA that was selected for funding by HUD in 2015. In addition to the 33 vouchers, MaineHousing will set aside up to an additional 7 vouchers for families who are over 61 years of age and are receiving Medicaid waiver services, as listed above.

The Family Unification Program (FUP) is a collaborative effort between MaineHousing and the Maine Department of Health and Human Services (DHHS).

The Family Unification Program provides a Section 8 Housing Choice Voucher to families for whom the lack of adequate housing is the primary factor in the separation (or threat of imminent separation) of a child or children from their families or in the delay in the discharge of the child, or children, to the family from out-of-home care. The child or children must be able to be reunified within four (4) months of the application date to the Family Unification Program. The DHHS Child Protective Caseworker must certify that the family

meets the above criteria in order to qualify for the FUP voucher.

MaineHousing provides a web-based forum for landlords and property managers to list available units for prospective tenants. This website, www.mainehousingsearch.org, allows landlords to provide details about available units such as accessibility features and voucher eligibility and allows social service agencies to assist their clients in finding appropriate, affordable housing units.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

In 2019 MaineHousing updated the Analysis of Impediments to Fair Housing Choice. The Analysis is available on the MaineHousing website.

See the attached list of actions taken in 2019 to address impediments identified in the 2015 Analysis of Impediments to Fair Housing Choice.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

MaineHousing monitors multi-family rental projects receiving HOME funds for compliance with the program rules and property standards through on-site inspections at the required frequency outlined in 24 CFR §92.504(d). As outlined in the 2013 Final HOME Rule, in 2016 MaineHousing implemented a risk-based model which adjusted the frequency intervals for inspections. On-site inspections consist of both tenant file reviews and physical plant inspections of 20% of HOME-assisted units, although the two may not happen simultaneously. In some cases, the file review and inspection may occur in offsetting years to allow for broader coverage – this is especially true in those cases where there is no other financing in the property. Reports are issued for both types of inspections and Owners are provided 30 days to rectify any non-compliance identified during the review (or less if more significant health and safety items are identified through the physical plant inspection of the units). If non-compliance remains uncorrected, the property could be declared to be in default and action taken to call the note. In some circumstances, the period of affordability may be extended for any period the property was deemed non-compliant.

In addition to on-site reviews, annually MaineHousing reviews all financial reports provided by the owner (budgets and Audited Financial Reviews) to identify potential financial risks to the property, as well as the submitted tenant status reports that outline the tenancy and income levels of tenants in HOME units, allowing validation that the targeted population continues to be served in the property and that rents fall within allowable limits.

Maine utilizes a risk-assessment monitoring model for ESG, developed with the assistance of HUD Technical Assistance. Below is a snapshot of the resulting “dashboard” used to track the monitoring and technical assistance needs of shelter providers as well as serve as a conduit to report back to the CoC. MaineHousing conducts annual on site monitoring visits with each ESG sub-recipient.

The State monitors all CDBG grantees for compliance with regulations.

(Disclosure for the shelter risk assessment score:)

The risk assessment score indicated is the first score in a multi-year risk assessment of all ESG funded shelters in the state. While each shelter score sets a baseline, it does not yet indicate any extreme risks to the ESG funding in Maine. Using this tool, within three years MaineHousing will have a more accurate risk assessment score of each shelter in the state, and the level of risk they pose to the overall ESG funding we receive.

ESHAP Monitoring Dashboard

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

The draft 2019 CAPER was available for public comment for 15 days beginning March 12th, 2020. The public was notified of the availability via newspaper ads in the Bangor Daily News, Kennebec Journal, and Portland Press Herald. DECD and MaineHousing posted copies of the draft document on their websites and email announcements were sent to individuals and organizations. The MaineHousing email list includes community leaders, developers, CHDOs, local housing authorities, advocacy groups, not-for-profit organizations, providers of housing and services to the homeless, and individuals.

No Comments were received.

A language translator is available on the MaineHousing website.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

There have been no changes to the state's program objectives.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

See the attached summary of projects monitored in 2019.

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 92.351(b)

All property owners are required to have a Management Plan and a Marketing Plan that affirmatively furthers Fair Housing. MaineHousing has provided Marketing Plan Guidance to Owners/Managers that outlines requirements for assuring affirmative fair housing occurs. The owner is responsible for selecting residents in a non-discriminatory manner and maintaining a written waiting list of applicants in accordance with the project's resident selection policies and criteria that comply with all federal and state laws prohibiting discrimination on the grounds of race, color, national origin, religion, sex, physical or mental handicap, sexual orientation, familial status, ancestry, and receipt of public assistance. As a result, there is a diverse ethnic and religious population that resides in MaineHousing funded properties.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

MaineHousing is following HUD guidance for implementation of the HOME Interim Final Rule. The current guidance allows Participating Jurisdictions to accumulate program income (PI) in the current program year for commitment in the following year. In 2019 MaineHousing received \$570,105 of program income; \$307,642 in program income was expended on TBRA activities with additional program income committed to TBRA but not yet expended. Please see CR 10 and CR 20 for information about persons assisted with HOME funds (including PI).

Describe other actions taken to foster and maintain affordable housing. 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 91.320(j)

MaineHousing uses the Rental Loan Program (RLP) to provide low interest, long term mortgage financing to qualified private, for profit and not-for-profit developers of affordable rental housing. The RLP may be used for new construction and for the acquisition and rehabilitation of existing housing. MaineHousing combines a number of financial resources for the RLP, including HOME and HTF funding, tax-exempt financing, and various state resources. This program is specifically designed to be used in conjunction with the equity provided through the LIHTC.

CR-56 - HTF 91.520(h)

Describe the extent to which the grantee complied with its approved HTF allocation plan and the requirements of 24 CFR part 93.

MaineHousing is in compliance with its approved HTF Allocation Plan. In 2019 three HTF funded projects reached completion status, 3 projects are currently in construction, 3 projects are in the development process, and 2 more projects have been selected to receive HTF funding. When occupied these projects will house tenants with incomes at or below 30% of AMI.

11. Project Outcomes Data measured under the performance standards developed in consultation with the CoC(s)

Maine’s network of 36 emergency homeless shelters statewide use these funds for operating expenses as well as housing relocation and stabilization services in order to rapidly re-house and stabilize individuals and families who are living in shelters and on the streets across Maine. These shelters employ 73 Housing Navigators who conduct comprehensive assessments of clients, create housing stability plans, assist with housing search and placement, and follow clients beyond the shelter to ensure housing stability. The percentage of shelters that met the outcomes for initial assessments within 30 days, including the VISPDAT was 100%; 100% of shelters created Housing Stability Plans for clients with VISPDAT scores greater than 3; and 100% of shelters met the benchmark for providing a 30 day service. Shelters are awarded performance incentives in two categories, exiting clients to permanent housing destinations, and maintaining rare occurrences of clients returning into the homeless system after having exited to a permanent destination. This performance data is measured semi-annually.

Efforts to Comply

Attempted to recruit low-income residents through: local advertising media, signs prominently displayed at the project site, contacts with community organizations and public or private agencies operating within the metropolitan area (or nonmetropolitan county) in which the Section 3 covered program or project is located, or similar methods.	Yes
Participated in a HUD program or other program which promotes the training or employment of Section 3 residents.	No
Participated in a HUD program or other program which promotes the award of contracts to business concerns which meet the definition of Section 3 business concerns.	No
Coordinated with Youthbuild Programs administered in the metropolitan area in which the Section 3 covered project is located.	No
Other efforts to comply	<p>We required our grantees to attend two days of training (August 6 & 7, 2019) where this was fully explained and heavily emphasized. Section 3 materials were provided in all contracts over \$100,000, and the fact that it was a Section 3 covered contract was on the required project sign.</p> <p>There is no youthbuild program in areas of the state outside Portland (the city proper).</p> <p>We have tried to recruit but with the tight labor market in Maine this year (2.8% unemployment) contractors are having a hard time getting ANY new employees.</p> <p>Maine is the oldest state in the nation and many of our young people leave for better opportunities elsewhere.</p>
